# Start Making Money Online

## **Congratulations! You Can Start Making Money Today.**

You are not required to do anything in this guide or take up this course if you do not want to, however I suggest you do as you'll learn a great deal at an insane price.

Feel free to recommend every single person you know to this course, as I truly believe it is win-win for everyone. eBooks are great and all, but the best way to learn is personal coaching... and that is what I will be providing you.

If you are interested, I am always available through various instant messaging services, so feel free to contact me at any time.

# The Courses I Offer

I can help you with nearly every aspect of making money online... you just have to ask. Below are some of the courses I offer, and if you are interested in something that is not listed let me know. I will not be of much help with things like forex / gambling, as I have not done them; all things mentioned below are things I have tried at least once before.

You will get personal training via instant messenger for the method(s) you choose. Anyways, let's look at some of the courses:

## **Blogging 101: The Basics**

For the beginner - ever needed help setting up your blog and help deciding on themes and plugins you could use? This will help you choose all that as well as talk about the basics that you need to know like permalinks and auto pinging.

## **Blogging 102: Marketing**

Having a blog is all well and good, but the best blog in the world is worthless if no one sees it. I'll give you a basic walk through on how to market your blog, talking about both free and paid ways that you can promote.

## **Blogging 103: Monetization**

You've got the blog setup, you know how to get visitors... but you want to make money. I'll talk about the various ways you can make money, ranging from PPC, affiliate programs or various other things like paid reviews and similar.

## **Blogging 104: Killer Contests**

A contest can do so much for your blog that it needs it's own section. I've held some huge ones in the past, and will be holding some huge ones in the future... and if you want a contest that will rock your blog, this is what you need to look at.

---

## **Proxies 101: Starting Up**

Proxies are one of the best ways to get started out. I'll talk about choosing a host, selecting a free script that is the most functional and also what ads you should use on both the main page and the proxified pages.

## **Proxies 102: Marketing**

You need traffic to make money. I'll show you how to get that traffic.

## **Niche Website Flipping: Content Websites**

I'll talk about setting up a niche content website (deciding on a theme and whatnot) and how you can maximise its value for a quick flip.

## **Image Hosts 101**

Ever wanted an image host of your own? They're fun to run and can bring in money too if you do them right. I'll show you how exactly you do them right.

## **Flipping eBook Websites**

I once sold a product about doing this and made \$4,000 - you can get better coaching than that for a less than a dollar. What I'm going to do is walk you through getting up your own PLR eBook website and how to flip it in an hour or less to make quick spending money.

## **Article Marketing**

Article marketing used to be difficult... not anymore. I'm going to talk about what to do, where to go, how to write articles that will send you targeted traffic and how to get listed on the front page of Google by writing articles.

## **Free Pages For Affiliate Profits**

Getting into affiliate marketing is easy, but few do it... you don't need to spend much to get started, or any money at all in fact. I'll talk about using the likes of Squidoo, Hubpages, Blogger and Wordpress.com to get ranked and pull in the profits.

---

## **Making Money With Email / Zip Submits**

Using pay per click is fairly easy for this kind of thing... I'm going to talk about how you can make money off email / zip submits.

## **Make Money By Blog Commenting**

I've coached six people on this... five of them have made amounts in the hundreds and one of them has made four figures with less than a day's amount of work. Learn what to do, where to go, how to get sales and benefits you can offer to close the deal.

## **Make Money Offline**

I've made \$x,xxx with this method so far and it hasn't required more than a couple hours of work. If you want to learn how you can make money offline by providing simple services to local businesses, this is the course for you.

## **Make Money With Wordpress Themes: Link Sales & Flipping**

Wordpress themes are a wonderful thing... and now you can make money with them, both free and paid. There are two ideas to this and I'll explain both of them to you.

## **Creating Your Own Product**

As a lot of you will know, I've created products of my own and done pretty well with them. I'll let you know how you can follow my success and make thousands for a couple hours of work.

## **Make Money Outsourcing**

You can make money pretty easily by outsourcing services... you don't have to do a single bit of work and you can easily see a 10x or more return on investment. When I'm feeling lazy, this is what I do... and it works pretty damned well.

## **Make Money With Domains**

I'll walk you through what kinds of domains you should purchase and how you can flip them within hours for maximum profits.

---

## **Make \$xxx/Daily Providing Advice to Others**

Something I thought up fairly recently, and something that will take you very little time to understand. Something so easy an idiot like me can do it, so take this course if you are interested.

## **Private Label Right Stuff**

I'll give you one source of private label rights stuff every month which you can download the products provided and resell them or use them on your own websites. I'm talking hundreds of products here. :)

## **Make Money Forum Posting**

Forum posting is a great way to build up small amounts of capital for domains etc and I'll talk about where you can go and how you can post.

## **Blackhat & Greyhat ideas**

If you don't mind going on the shady side, I have a dozen or so blackhat / greyhat ideas you can use. I do not use most of these anymore, but have worked them in the past with decent amounts of success and have friends making \$x,xxx *daily* with some of these ideas.

Contact me privately for the list of blackhat and greyhat ideas.

## **Anything else**

There is a lot of things covered above however there are some which I haven't mentioned... either I've forgotten to or just not. If you need help with anything, just contact me and I will get around to getting your sorted out.

---

# What You Need To Do

Personal coaching is worth a lot more than \$10 (the price of your standard low scale eBook)... however, I want to help people out.

However, although the value of my teaching will be much more than \$10, \$50 or even \$100, I've decided upon making it a must that everyone to take this course uses Hostgator under me. This way, you get the teaching and kick ass hosting, I get the affiliate commission and everyone wins.

Luckily for you, Hostgator only costs one cent for their first month with the coupon code **wordpress** or **jury**. So you'll get one course for one cent... how much of a deal is that? If you renew with Hostgator, you get another course... that's how simple things are.

Please contact me via instant messenger **before** you sign up if you have any problems.

Commissions take 24 - 48 hours to register (usually much faster) and we can begin as soon as that happens.

**First month... you pay \$0.01 - get training for one course.**

**Second month... you pay \$9.95 - get training for another course**

**Third month... you pay \$9.95 - get training for another course**

You get the idea. You get the hosting and training, I get the commission and Hostgator get another customer. Win, win, win. :)

Here are the instructions

## Clear Cookies

If you are on Firefox, all you have to do is go to Tools ==> Clear Private Data (shortcut is Ctrl + Shift + Delete) and clear your cookies.

If you are on Internet Explorer, stop being foolish and get Firefox; but anyways, to clear your cookies you will need to click Tools ==> Internet Options ==> Delete Cookies.

---

Next thing you have to do is sign up for Hostgator.

<http://startmmo.com/hg.php>

Go to the above link. Click Order Now.

You will need to choose the Baby plan, which costs \$9.95 (if you pay monthly).

Use the coupon code **wordpress** or **jury** to get your first month (and thus your first bit of coaching) for \$0.01

You will need to enter a domain of yours. Do not buy one through them (use one of yours). After you have signed up and paid, send me your domain name and we can get started.

Hostgator take some time to register the signup (usually less than 24 hours) so when I see it, we start the consultation.

Yes, I do know that people have to renew twice for me to get paid. However, if you want to learn another of the above methods (and I'll add new ones monthly) you will renew. Surely personal coaching is worth a lot more than \$9.95/month to you now, isn't it? :)

If you have any questions, send me an email or ask me via instant messenger.

## **Contact Details**

Email:

[JPereira.Owns@gmail.com](mailto:JPereira.Owns@gmail.com)  
[admin@theuniversitykid.com](mailto:admin@theuniversitykid.com)

Instant Messenger:

MSN: [JPereira.Owns@gmail.com](mailto:JPereira.Owns@gmail.com)
